

QCE Laboratories

A division of QCE, Inc.

Circuderm®

CIRCUDERM® is an effective, natural dermal tissue during wound care therapy. The natural oils contained in Circuderm have anti-infective properties that promote wound healing and improve epithelialization.

Active Ingredients:

Peru Balsam – Increases blood flow to the wound site improving circulation, necessary for wound healing and cell growth.

Castor Oil – Creates a moist environment, necessary for wound healing.

Circuderm® is an over-the-counter product that does not require a prescription. The ancient healing benefits of Peru Balsam and Castor Oil have been recognized for centuries and provide effective, natural healing properties for the treatment of wounds, whether acute or chronic in nature.
